Company objectives

IPC's staff

We are an agile and responsive team of experts from diverse backgrounds. We are a family enterprise and provide every employee chances and room for individual development.

IPC

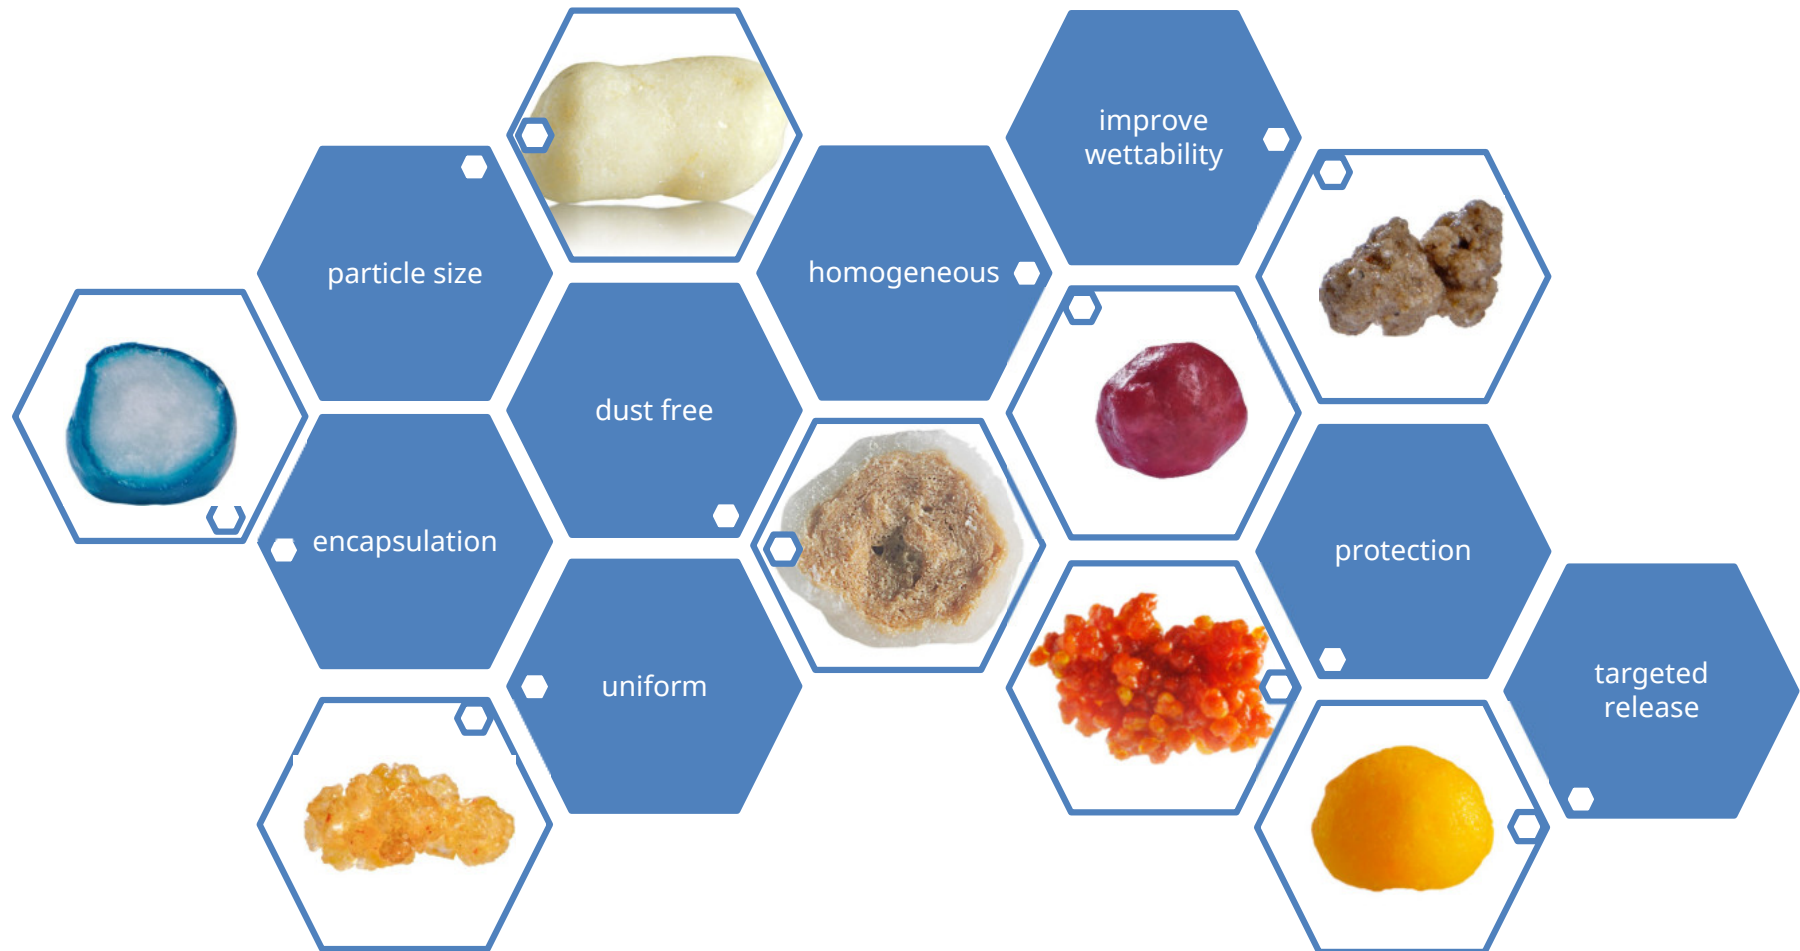

We want to be **the** granulation specialist.
We act responsibly towards environment and society.

IPC's business partners

We want to open gates to new business opportunities for our customers.
We design and manufacture solid particles with our service, expertise and equipment to bring our client's product ideas to life.
We are committed to long-term relationships in trustful collaboration.

from IDEA to PRODUCTION

Overview of technological possibilities

our technologies

extrusion

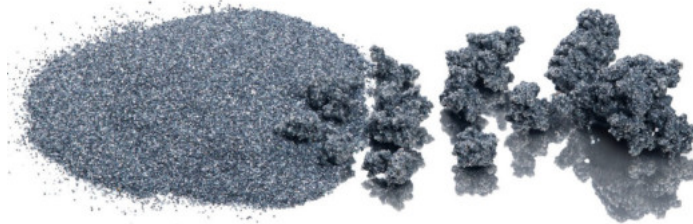

wet
granulation

spray
granulation

fluid bed
agglomeration

coating

From IDEA to PRODUCTION

1 Initiation	2 Product Development	3 Pilot Production	4 Masterbatch	5 Routine Production
CDA, product concept, evaluation of QM criteria, raw materials, economic and legal aspects	feasibility study, follow-up trials, technology screening, formulation development	development agreement, Scale-up pilot size, process optimisation, sample production	masterbatch agreement, manufacturing documents, first full-size campaign	manufacturing agreement, regular production in campaign mode, MOQ's, annual forecast

Key to success is a very close collaboration of all parties over a period of 6 to 18 months
